More reasons to choose a DLG door

DLG doors are made from the the UK's market leading GRP composite door slab. Our doors look great and can save you money on your heating bills compared to other doors in the market.

Unparalleled Security

Thanks to its rigid polymer subframe, high density CFC-free polyurethane foam core, high impact resistant GRP skin and high quality multi-point locks. The door leaf and glazing system are major components when part of a door set and have a proven ability to achieve PAS24:2016, industry's enhanced security standard, a prerequisite in attaining certification to Secured by Design a police initiative to protect against unlawful intrusion.

Exceptional Durability

High impact resistant glass reinforced polyester (GRP) skin. Selected DLG products come with a 10 year peace of mind guarantee.

Thermal Efficiency

Tests prove a DLG GRP Composite Door is -

- 19%** More thermally efficient than a 48mm solid timber core composite door.
- 17%** More thermally efficient than a 44mm traditional timber panelled door.

Stunning Aesthetics

The woodgrain finish was developed from oak tree grain, creating a beautifully authentic appearance. Unlike lesser doors, you'll find the same woodgrain effect and moulding design on the slim glazing cassette too, giving a seamless, elegant finish and impressive kerb appeal.

Superb Sound Insulation

Weighted noise reduction of 31 decibels. It means you can be sure your new door will keep outside noise to a minimum, helping to make your home the haven you want it to be.

Excellent Weatherproofing

Water resistant polymer composite rails that protect its core. Your door will keep the weather at bay and stay looking good for longer.

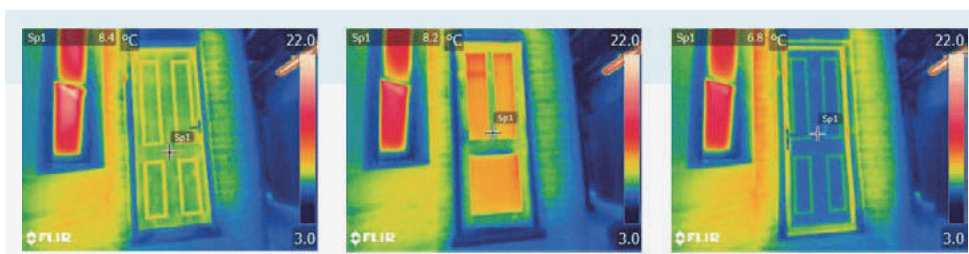

Low Maintenance

Everything about DLG GRP composite door is designed to be easy to maintain, including our insulated glass units. Simply clean with warm, soapy water.

Contemporary Bar Handles

In addition to the traditional lever handles shown opposite, **stainless steel bar handles** are also available and designed to enhance the look of the modern home, creating a stunning, contemporary entrance.

Inline & Offset sizes – 550mm, 720mm, 1100mm, 1400mm, 1600mm, 1800mm

Sweet & Ultion

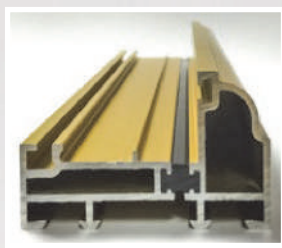

More reasons to buy a Hallmark door. **Sweet & Ultion.**

Both ends of every Ultion lock feature 20 hardened steel pins and plates each one positioned precisely to protect your lock from a drill attack. When Ultion detects an attack it activates Lockdown Mode.

A hidden firing pin in Ultion's core secures the central cam and stops the intruder being able to open the door.

THRESHOLD Options

As well as the standard, integral frame threshold, there are a number of low threshold options available including low 15mm and 44mm aluminium, low 56mm PVCu frame and MDS Mobility Door Cill options.

STABLE DOORS

DLG composite stable doors are just as at home in a modern property as they are in their traditional country cottage setting. Manufactured from the same core materials as our market leading 44mm Entrance Composite Doors, the stable doors offer the same consistently high level of quality and security that you expect from all DLG door products.

Colour Bond Service

In addition to the standard colours shown, for a small surcharge our stable doors are available in any specified RAL colour of choice.

SERVICE

WINKHAUS TRU-LOCK

WINKHAUS TRULOCK multi-point locking systems are fitted to all Elite Composite doors as standard. Superbly engineered, the Trulock mechanism is approved by the 'Secured by Design' Police initiative. Manufactured to meet the requirements of a modern door design, the Trulock delivers enhanced performance using low friction hook thrust plates for a smooth, precise operation.

Sweet Dual Ring Pull

Available in Chrome, Black, Gold and Satin Silver - dual sided as standard.

The **WINKHAUS HERITAGE** multi-point locking system has a slam-shut operation whereby the lock hooks will automatically engage once the door is closed. A key is then required to gain entry from the outside.

The key cylinder is positioned 3/4 of the way up the door - similar to traditional period doors. From the outside the lock is key operated with a ring pull plate and from the inside by a thumbturn (or key) used with an internal handle to aid door opening).

WINKHAUS HERITAGE LOCK

KEYWIND LOCK

Used with the S-Series Bar Handles, the keywind lock has the cylinder positioned at midrail height. The lock is operated from the outside with a keywind operation and from the inside with a keywind or thumbturn operation.

ENTRY GUARD

The Lever/Lever Trulock is available with an integral TruGuard bar offering a higher security level compared to a traditional door chain.

WINKHAUS AV3

The autoLock AV3 locking system from Winkhaus is an automatic multi-point locking system with independently acting hooks for claw action and sealing elements for a dynamic contact pressure. Triggered by means of a magnetic release on the frame and the door is secured against undesired entry. This ensures that the door always remains securely locked and remains firmly in its frame even without additional locking. The sturdy hooks, sealing elements and latch can be retracted manually using the locking cylinder or door handle.
